Mohamed Yehia

Freelance Full-Stack Developer

WhatsApp: +20 100 400 4795 | Email: myhi@hotmail.com | GitHub: github.com/myhifi

SUMMARY

Aspiring Full-Stack Developer with a strong foundation from Harvard's CS50 and hands-on training in web development. I build responsive, user-centered websites using HTML, CSS, Tailwind, Bootstrap, and JavaScript. Focused on freelance projects, landing pages, and small web apps that deliver practical, modern, and fast results for clients.

SKILLS & TOOLS

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, JavaScript

Backend / Databases: Flask, Python, SQLite / SQL basics (CS50)

Tools & Workflow: Git, GitHub, Deployment (GitHub Pages, Netlify), VS Code

Currently Learning: React, Next.js

SELECTED PROJECTS

Clipboard Landing Page — Responsive landing page built with HTML, CSS, Bootstrap. Based on Frontend Mentor design.
Live: myhifi.github.io/Clipboard-landing-page-From-frontendmentor.io

Bootstrap 5 Crash Course — Multi-page demo site practicing layout, components, and deployment.
Live: myhifi.github.io/Bootstrap-5-Crash-Course-_-Website-Build-Deploy

Social Links Profile — Personal profile page and link hub built with HTML, CSS, JS.
Live: myhifi.github.io/social-links-profile

EDUCATION & CERTIFICATES

CS50: Introduction to Computer Science — Harvard University (Online). Covered C, algorithms, data structures, Python, SQL, HTML/CSS/JavaScript, Flask.
Full Stack Development Course — Practical training in frontend, backend, and deployment.

FREELANCE SERVICES

• Responsive landing pages and marketing websites.
• Small full-stack apps using Flask or static frontend tools.
• Website fixes, optimizations, and deployment help.
• GitHub project setup, documentation, and hosting assistance.

Portfolio: github.com/myhifi | Available for freelance web projects and collaborations.
